September 23, 2019

The Honorable Curtis Hill  
Indiana Attorney General  
Indiana Government Center South  
302 W. Washington St., 5th Floor  
Indianapolis, IN 46204

Dear Attorney General Hill,

We write to you regarding the horrifying discovery of more than 2,200 preserved fetal remains on the Illinois property of the recently deceased Dr. Ulrich "George" Klopfer, an abortionist who practiced for decades in northern Indiana until 2015. It is sickening to see such callous disregard for human dignity and the sanctity of life.

We welcome the coordinated investigation you announced with Illinois Attorney General Kwame Raoul, and we stand ready to lend any assistance necessary. This gruesome discovery raises many questions, including when and where the abortions took place, how the remains were transported to the property in Illinois, what physical condition the remains are in, and whether any other individuals had knowledge of or bear responsibility for the preservation and transfer of the remains. Additionally, it must be determined whether any state or federal laws were violated.

As you well know, since 2016 Indiana has had a law, which was upheld by the U.S. Supreme Court this year, requiring the dignified disposition of fetal remains. While it is not yet clear where the remains found on Dr. Klopfer's property originated, there is no question these remains should be treated respectfully, and any remains determined to have originated in Indiana should be handled according to Indiana law.

Please keep us apprised as your investigation progresses. We look forward to learning of its conclusions and working to prevent such tragic situations from occurring in the future.

Thank you for your prompt attention to this pressing matter.

Sincerely,

Jackie Walorski
